

Mining Supply, Trade and Investment Project

Identified Regional Mining Supply Sector Opportunities

In October 2015, a regional gap analysis was completed for the mining supply sector in the Northeastern Ontario communities of Black River-Matheson, Cochrane, Iroquois Falls, Kapuskasing, Temiskaming Shores, and Timmins. Gaps identified as potential business opportunities are listed below. Note that this list does not imply feasibility; like any business opportunity, a thorough feasibility study should be completed prior to investment.

1. Mining Services
 - a. Comprehensive HVAC Service
 - b. Hot-dip Steel Galvanization
 - c. Real-time Water Analysis
2. Raw/Fabricated Materials
 - a. Chemical Reagents (Lime, Cyanide, Sulfuric Acid, etc.)
 - b. Crushing Materials
 - c. Propane (Large Quantities)
 - d. Insulation (Large Quantities)
 - e. Large Pallets of Oversized Lumber
3. Parts and Components
 - a. Ground Support
 - b. Grinding Consumables
 - c. Heavy Equipment Spare Parts
 - d. Pumps
 - e. Air Cylinders for Valve Actuators
4. Manufactured Complete Systems
 - a. Flexible Manufacturing Systems (FMS) and 3D Printing
 - b. Large-scale Manufacturing
 - c. Specialized Mill Equipment
 - d. Advanced Electric Vehicle Systems & Batteries
 - e. Pre-fabricated Building Manufacture
5. Mining Solutions
 - a. Large-scale Integrated Project Engineering
 - b. Large-scale Mine Remediation and Dam Construction
